Pre-test Questions

1. Do you draw? If yes, how often?
No I don't, I don't have the skills.
2. How would you describe your level: beginner, hobbyist, or more advanced?
Beginner, but it could be a hobby.
3. Have you used any drawing or creativity apps before? Which ones?
Probably some of those apps for notes. Just for fun though, nothing serious.
4. When you draw, what's usually hardest: getting started, staying motivated, or improving
I think getting started. You don't know what to draw, what's the subject, you have lots of ideas and you don't know the techniques. Also, staying motivated.

First Screen Impression

It looks very friendly, very open. You can understand what you can do, you can upload photo... It's very easy to use. It doesn't look so technical.

- The feedbacks could be more fun.

End of test (Debrief)

1. "What part of the app felt the most clear?"

The uploading with all those different categories that you can put all your drawings, and divide them by the categories. It's very smart.

2. "What part felt confusing or annoying?"

There's no part that I found confusing or annoying.

3. "Did the progress and feedback feature feel motivating or stressful?"

They could be more motivating, and maybe more technical.

4. "If you could change one thing, what would it be?"

Only the feedback part. I'd put more technical suggestions.

5. "Would you personally use something like this? Why or why not?"

I would use it, but more as a tool for my kids, or maybe if I was working at a school. Personally for myself, not so much, because I'm not good at drawing. Drawing is not something that I do on a daily basis, and I don't think I'd get better with an app. But for kids, I'd definitely use it.
